B E A T M A K E R

From the time when I used to compose music on Music2000, to today, where I blend urban vibes, electro, and Afro house, a lot has happened...

My musical universe transcends genres, capturing the vibrancy of urban landscapes and exploring the innovative horizons of electronic music. Inspired by legends such as Pharrell Williams, Timbaland, and Kanye West, I shape a modern symphony where Afro house intertwines with pulsating beats and electronic sounds.

Welcome to my sonic world, where musical daring merges with authentic emotion.
