In today's abundance of electronic music, as a label, we listen to lots and lots of music. Almost a year ago, we discovered an artist for whom we had a radical crush! His name is **PRIVACII**, and we think that his music won't stay private for long ;-)

Originally from Mbabane, the capital of Eswatini, multi-talented DJ and producer, **PRIVACII** has cut his teeth by actively contributing to numerous collaborations, but also by working tirelessly to develop a sound that defies categorization. Inspired by the concept of Afrofuturism, his music in the direct lineage of Afro-House is nevertheless imbued with an electronic universe as subtle as it is powerful. Thanks to the success of his music, **PRIVACII** has shared the stage with a wide range of artists such as Shimza, Themba, Da Capo, Zakes Bantwini and Grammy Award-winning DJ, Black Coffee.

The EP "**Metamorphosis**" represents a pivotal moment in **PRIVACII**'s artistic journey, with two original tracks and an extended version. This title holds deep meaning for him, symbolizing his growth and evolution as a musician.

"Peace": Originally produced as an instrumental track, and already composed of captivating melody and complex rhythms, "Peace" was later taken to another level through the collaboration with singer **TLHALEFO**.

"Tangerine": With a seamless blend of atmospheric synths, captivating basslines, and complementary vocal harmonies from "Lele," "Tangerine" builds to a euphoric crescendo, showcasing **PRIVACII**'s signature arrangement and production.

"Metamorphosis" is **PRIVACII**'s invitation to discover a realm of sonic innovation and emotional resonance. With meticulous craftsmanship and boundary-pushing creativity, this promising artist is carving out a unique place for himself in today's Afro-House electronic music landscape.
