"Lyannaj" between South Africa and Guadeloupe!

"LAGÉ MWEN" resonates with the history and resilience of an entire people, telling the "marronage" of a fugitive woman, who sets off with courage and determination towards the unknown. She braves challenges to win her freedom. This song celebrates the strength of the human spirit in the face of adversity and in the service of fair and universal awareness.

With "LAGÉ MWEN", our friend CÉLINE LANGUEDOC, one of the most essential voices in today's Creole scene, is joining our label, and we are very happy about it! Moving from jazz to gospel with disconcerting elegance and ease, here she is, delighted with this collaboration with EXTE C.

As a regular on the most high-rated DeepHouse playlists, the composer EXTE C didn't fail to deliver a sound with this unique groove, which we know and love from his first album to the most recent one "Something real".

This release will be accompanied by a remix from MOTSEK, featuring Samuel Darnal on Keyboard, a perfect match for this early spring.
